Here's a tip!

Caladiums are growing in popularity. Be among those leaders who, with profit, anticipate public demand.

Caladiums are highly decorative foliage plants, of easy culture. For floral work unexcelled as cut leaves - for vases - porch, window boxes, and conservatories - grand as pot plants - and attractive for out-of-doors groups and massive beds in partial or open sunlight.

Cultural directions are simple.

Use large pots and rich, loamy, preferably acid soil. When starting, do not keep too moist. They are rank feeders, and require an abundance of moisture during growth.

1. CANDIDUM - Snow white leaf, dark green ribs.
2. CHARMISSO - (Richard F. Deckart) Deep rose center, red veins, dark green border.
3. D. M. COOK - Ruffled leaf, plum center, spotted deep red.
